(Dlog Technologies) LOM mix preparing		
Water in Litres	LOM CD	Mixing / Stirring
10 litres	8 ml	2 times by hand
15 litres	12 ml	2 times by hand
20 litres	16 ml	3 times by hand
25 litres	20 ml	3 times by hand
50 litres	40 ml	5 times by 2" stick
100 litres	80 ml	8 times by 2" stick
150 litres	120 ml	10 times by 2" stick
200 litres	160 ml	12 times by 2" stick
300 litres	240 ml	15 times by 2" stick
500 litres	400 ml	20 times by 2½" stick
750 litres	600 ml	24 times by 2½" stick
Notes: (For LOM CD only)		
1. Always mixing ratio is 8 ml for 10 litrew. Do not add more.		
2. Do not mix or stir more times. It will not work.		
3. Water quantity may be plus or minus 5%.		
4. First take water, then add LOM.		
5. Empty the bucket / drum completely before preparing next batch		
6. Believe that this LOM is a very strong manure.		
Dated: 15 3 24
